You've been on my mind from the day we met
and ever since the time I cannot forget
the look in your eyes, the smile on your face,
the words you spoke so soft, they can never be erased.

And I dont no what you can possibly see in me
but im glad you see something.
I didnt think there was anybody out there for me
but that all changed the moment I met you.

So close yet so far that can secondry
whats inside my heart i hope you can relate.
I know its been a while since we last hung out
but I will be ok that I have no doubt.

And I dont no what you can possibly see in me
but im glad you see something.
I didnt think there was anybody out there for me
but that all changed the moment I met you.
I didnt think there was anybody out there for me
but that all changed the moment I met you.
There hasnt been a time in my life when you havent
been on my mind
and I dont think there ever will.

I didnt think there was anybody out there for me
but that all changed the moment I met you.
There hasnt been a time in my life when you havent
been on my mind
and I dont think there ever will.
