Sleeping in a pool of cianti  
Council with the ghost beside me  
Ambulances chant to uselessness  
Singing with the emergency broadcast system

Thank You Governer  
For passing some favorable legislation  
I assure you to my vote  
Thank you soldier  
For protecting our holy homeland  
Hope your courage sees you home

Rome didn't Fall in a Day  
It took some working towards  
They had their sport and holiday  
Didn't know what they were in for  
Rome didn't fall in a day  
Didn't even know it would  
They fed the kids and went to work  
Life generally was quite good

Fly into ashes now beside me  
Cross the Rubicon with both feet  
Cannon fodder fed off to the lions  
Reptilian heart vacant of love

Just remember this holy empire to which you pledge  
your allegiance also killed the man we call Jesus

The meek have inherited, everything they always had  
Nothing nothing, nothing nothing  
Nothing nothing, nothing nothing
