Standing on a mountain  
Sky is all around  
The world looks like a map from here  
But am feel more lost and found  
Why we keep on running  
I wish I only knew  
By the time I got the picture  
All worked out  
I be losing you

I be there  
You be there  
We will be there  
Dead end love affair

Yesterday is a liar  
Tomorrow is a clown  
I just hope we make it  
Over the bridge of time  
With of falling down €! mMm  
I know we can manage  
I know we get by  
Even if am know we are really close  
Only the time's we cry

I be there  
You be there  
We will be there  
Dead end love affair

I be there  
You be there  
We will be there  
Dead end love affair

I be there  
You be there  
We will be there  
Dead end love affair
