I know I made mistakes
I know I let you down
This time I'm here with you
Let's give it one more try
'Cause God knows I've changed

And now that you're back
I've been waiting for this chance
A chance to win you back
To win you back somehow
This time it will be right

[chorus]
Now that you're here
Nothing's gonna break us now
This time I won't let you down

[repeat chorus]

Now everything has changed
Everything's okay
Everything's so right
Everything's just perfect
This time it will be right

[repeat chorus]

[bridge]
I've seen the way you've hurt
Somehow I feel the pain
That's why I'm coming back
To take it away
And I will lift you up

[repeat chorus]

I won't let you down
