He wants to sleep alone  
He's got to sleep alone  
(Oh, oh, oh)

He wants to sleep alone  
He's got to sleep alone  
(No, no, no, no, no)

He wants to sleep alone  
He's got to sleep alone

Met her in the city  
On a hot summer night  
She makes some remark  
About dancing

Call a cab to 54  
Said two tickets, please  
She thought the night  
Was made for romancing

And with the rhythm  
She was feeling my body  
She said, let's move it up  
To your place, honey  
And I said

Well, you can touch me here  
And you can touch me there  
But let me sleep alone  
(Sleep alone)

You've got a lot of class  
And you can kiss my lips  
But let me sleep alone  
(Sleep alone)

All I want to is keep dancing  
All I wanna do is just dance

He wants to sleep alone  
He's got to sleep alone

(Oh, oh, oh)

He wants to sleep alone  
He's got to sleep alone  
(No, no, no, no, no)

He wants to sleep alone  
He's got to sleep alone

Sitting at a table  
At a quarter to four  
She makes some remark  
About leaving

I ordered us another drink  
And she ordered more  
I guess you see where  
All this was leading

Under the table  
She was feeling my body  
She said, let's move it up  
To your place, honey  
I said, I told you

That you can touch me here  
And you can touch me there  
But let me sleep alone  
(Sleep alone)

You've got a lot of class  
And you can kiss my lips  
But let me sleep alone  
(Sleep alone)

All I want to is keep dancing  
All I wanna do is just dance

He wants to sleep alone  
He's got to sleep alone  
(Oh, oh, oh)

He wants to sleep alone  
He's got to sleep alone  
(No, no, no, no, no)

He wants to sleep alone  
He's got to sleep alone

Yes, you can touch me here  
And you can touch me there

But let me sleep alone  
(Sleep alone)

You've got a lot of class  
And you can kiss my lips  
But let me sleep alone  
(Sleep alone)

All I want to is keep dancing  
All I wanna do is

You can touch me here  
And you can touch me there  
But let me sleep alone  
(Sleep alone)

You've got a lot of class  
And you can kiss my lips  
But let me sleep alone  
(Sleep alone)
