It's alright now  
We're alright now  
Yeah we're fighters  
You and me  
Soul survivor  
Start a fight like lovers can  
Don't surrender to the man

We're alright now  
We're alright now  
They can't take us  
They'll never break us  
She my baby she stands tall  
She my baby above it all  
Not a pussycat at all  
She's a leopard but she don't crawl

They can't take us  
They'll never break us  
They can't take us  
They'll never break us  
They can't take us  
They'll never break us  
Apart  
Surround us
