This is for the future of every family
New generation got to find a way to be
One love, one people is the only way to live
Without wanting is the only way to give

BRIDGE

This is for the future of everyone of us
I send this message,
Please remember love
This is for the future of everyone of us
I send this message,
Please remember love
This is for the world that
I may not live to see
A world where everyone
Lives in peace and harmony
No more worries about war around the world
A better life for every little boy and girl

BRIDGE

This is for the future of everyone of us
I send this message,
Please remember love
This is for the future of everyone of us
I send this message,
Please remember love
This is for the future
Please hear me when I say
We've got to learn a lesson
From the problems of today
One man can't rule this world
Everyone can see
Free love, free life, free thinking
An equality

BRIDGE

This is for the future of everyone of us
I send this message,
Please remember love

This is for the future of everyone of us
I send this message,
Please remember love
