"I can't stop" (Never) "I can't stop" (I've tried) "I can't stop" (Can't stop) [Chorus] [x2] I can't stop feelin' high I'll never come down [Verse One] [Natti] Too much pot in the brownie pan Got me baked faster than the brownies, man Have you ever been high from the inside out? On the lawn in my boxers like the insides out Carjack a Care Bear and just ride out In one of them cloud whips with the OnStar chip I'm so high, I hope you understand this shit Jane was plain til' I ate her then she came too quick Drink water while I'm rhymin' but I still can't spit My mouth is pure cotton like a t-shirt coughin' If baked means potato then my brain is au gratin Talkin' to myself with my neighbors all watchin' But going in the house proves way too hard When I fall in the front door and land in the back yard Physics don't apply, midgets in the sky Skippin' round my head saying "Negro you so high!" Damn [Chorus] [x2] I can't stop feelin' high I'll never come down [Verse Two] [Deacon] Said I'm eye to eye with sky Gods beside Horus Feeling like that white man singing in the chorus How'd I grow to be the tallest tree in the forest Without putting green in a shell like a tortoise, huh? Rigor mortised, higher than a lions chin If this was symphonies I'm way up there with violins If its a choir then, soprano octaves In an opera, where God lives Look, I know I'm soundin' like a liar but These brownies are angel sex Got a nigga high as fuck I smoke trees ins through all four seasons But I'm like gas prices, high for no reason Call a nurse your boys higher than Google Earth And if I fell the impact would put me through the dirt So let me zoom in, and get my zoom on This weed is Neil Armstrong I'm on the moon blown [Chorus] [x2] I can't stop feelin' high I'll never come down I just wanted me, some regular weed With regular stems and regular seeds Cause this shit here... I just wanted me, some regular weed With regular stems and regular seeds Cause this shit here...
