Some like to sit on the floor
Others like to rush out the door
Some like to but they keep pushing, pushing
Tahi, rua, toru, wha
I'm the one who took out the bits yeah
I never wanted to happen
I'm the one who took out the bits yeah
I never wanted to happen
I know some keep wanting more
Others lie there but they don't show
I keep my hands strong wanting it, wanting it
One, two, three, four
I'm the one who took out the bits yeah
I never wanted to happen
I'm the one who took out the bits yeah
I never wanted to happen
Lazy boy he's scared to keep the sound
Get down with the rhyme, kicking with the motion
Lazy boy he's scared to keep the sound
I'm the one who took out the bits yeah
I never wanted to happen
I'm the one who took out the bits yeah
I never wanted to happen
I'm the one who took out the bits yeah
I never wanted to happen
I'm the one who took out the bits yeah
I never wanted to happen.
