

## **Betchadupa "Diversions"**

Visit "[Diversions](#)" on MotoLyrics.com

There's a girl I used to see  
But I doubt that she saw me  
Cos she couldnt see or talk  
Or hear or have a thought  
And I saw her in a dream  
And we had a cup of tea  
She said Liam would you help me  
I want to see the world  
When you're asleep, then we will meet  
Together we will learn  
And all my world rained down on her  
Well she was born with diversions in her head  
All my world rained down on her  
Well she was born with diversions in her head  
She don't even know Im there  
You taught me how to feel  
The things that are not real  
Now my skins more sensitive  
And I have much more to give  
And I showed you through my life  
The happiness and strife  
It seems much lighter now, as far as I can tell  
But there's one thing that gets to me  
But you can turn around  
And all my world rained down on her  
Well she was born with diversions in her head  
All my world rained down on her  
Well she was born with diversions in her head  
She don't even know Im there  
If I showed you all I know, don't look at me  
I know you have to go  
And her brain stopped, I stopped dreaming  
And her heart stopped, I stopped breathing  
Oooooooh, oooooooh, Im moving  
And all my world rained down on her  
Well she was born with diversions in her head  
All my world rained down on her  
Well she was born with diversions in her head  
She don't even know Im there
