Sit back and enjoy the show
This song hasn't got long to go
We came and then we left again
I know we're ...
Hope everything is well
And i don't ever wanna let go(x3)
Sit back and enjoy the show
This part was made extra long
I know you've been waiting
For long time to get your way
But I
Still try just to give it away
We go hard almost everyday
Times can feel tough but
I know
Don't ever let go
And I don't ever wanna let go(x7)
Movin away, I get
Caught in a maze, hope my
Memory stays cos I won't see you again
Time that we've spent
And the things that you meant, be the
I'll miss you always
Cos I won't see you again
And I don't ever wanna let go(x5)
