I sit outside the theatre in the rain
The air is cool and calming to my brain
From where I stand the ground before me lays
Cannot think
Cannot solve the little things
Now I walk into my town's domain
The water drops to death into the drain
Believe me i will try the other way
But it is hard to motivate
Me in the rain
Clouds of dark
And i am stuck
In the rain
Rain is falling on
Falling on the trees
And i can't have it all
Have it all my way
Now the sun is rising to my face
The air is warm
It might be getting late
The animals are out here once again
Cos it is hard
To run away in the rain
Cannot think, cannot talk, can't explain
Rain is falling on
Falling on the trees
And i can't have it all
Have it all my way
Rain is falling on my face
Rain is falling on
Your smile comes
There will be no more rain
The sun is up
There is no, no more rain
And i try to run away
Every day
