Get up you creature of the night
That'll people start to feel alright

Mr. Baloo in Africa
You, me and the Chinese wall

Sing Yiasou to all the people
Sing Yiasiou you gonna live it up

Yiasou...
You've got to stop the fire
The fire of desire

Yiasou...
Come on and move your feet
To the electronic beat

Living in the world of mad desire
Looking at people in the streets of fire

All they want is just perfect fun
Just living in the island in the sun
