Just breathe in we know your favorite sin. You're
cherubic smiles are worthless
This semblance could never make amends for your
harlot presence
We'll shed off layers like snakes disowning their skin
and crash upon the floor
The night is ours as the moon's light devours a thief
under his cherubic whore
Who's ever innocent?
Smile for me, sweetheart

Our lungs we fill up (Fill up)
And our hearts we give away just to make it through
(To make it through another night)
No one sleeps alone anymore
Let's burn these sheets and bury memories
(Let's bury you and me.)

Our lust lacks luster as the moon, it shines so bright.
I'll pry your fingertips as we meet at the hips I'll
scream
Sing to me, your moan sings to me.
Sing to me, your moan sings to me.
Our lungs we fill up (Fill up)
And our hearts we give away just to make it through
(To make it through another night)
No one sleeps alone anymore
Let's burn these sheets and bury memories
(Let's bury you and me.)
Under six feet of sheets
Crushed crimson covering 'til we can't breathe

Sing to me
Sing of my favorite dirty word
(You never)
Sing to me
Sing of L-O-V-E

Our lungs we fill up (Fill up)
And our hearts we give away just to make it through
(To make it through another night)
No one sleeps alone anymore

Let's burn these sheets and bury memories
(Let's bury you and me.)
Under six feet of sheets
Crushed crimson covering 'til we can't breathe
