

## Cut The Shit "Apart"

Visit "[Apart](#)" on MotoLyrics.com

I can't move on with you around, ignoring my needs.  
everytime i'm feeling better, you bring me disease.  
just when i think everything's okay, you walk back in my  
life and reality slips away.  
just when i'm through picking up the pieces i always fell  
apart.  
i sit and suffer in silence, never saying a word.

i try and keep a smile on my face, while you shatter my  
whole fucking world!  
just when i think that i've moved on , i see your face  
and it proves me wrong.  
so i pick up the pieces one more time just to watch  
them fall apart
