

Cut The Shit "No Control"

Visit "[No Control](#)" on MotoLyrics.com

Who says i need you to make my decisions?
who says you can rule my life?
who says i need you to make decisions?
i won't stand idly by under your control
...i can't take anymore!
i won't live by your rules, i won't fight in your war.
i won't spend my life struggling under your control

...there's no controlling me
don't you try and stop me, cause i've lost control.
i won't live by your rules, i won't fight in your war.
i won't spend my life struggling under your control
i won't stand idly by under your control
i won't spend my life struggling under your control
