You, change your mind, like Cheyenne changes boys.  
Yeah you, think your cool, when Carmie is cooler.  
& you, always think, Mariah's your friend? it's not true.  
& so you think your cooler than all of us...

(Chorus)

But were hot & your cold  
Were yes, & your no  
Were in, & your out  
Were up, & your down  
Your wrong, when were right  
Your black, & were white  
You fight then suck up, we kick don't make up.

Tanya don't really wanna stay alone, she f\*\*ks fake  
boyfriends on the phone.

Cause were hot, & your cold  
Were yes, & your no  
Were in, & your out  
Were up, & your down

Channings face is stretched out, like playdough  
& Bailey looks like plastic, but it's really not true  
& Larissa is a ginger  
& Tanya is just small  
& Cody, is just a weedy playyy-eerrr

(Chorus)

But were hot & your cold  
Were yes, & your no  
Were in, & your out  
Were up, & your down  
Your wrong, when were right  
Your black, & were white  
You fight then suck up, we kick don't make up.

Logan don't really wanna stay alone, she is a fat ugly  
hoe.

Cause were hot, & your cold  
Were yes, & your no  
Were in, & your out  
Were up, & your down

Breonna sounds so weird, she sounds like a squeeking  
b\*\*ch  
She wants to, do something every-daaayy

You, change your mind, like Cheyenne, changes boys...  
(Chorus)  
But were hot & your cold  
Were yes, & your no  
Were in, & your out  
Were up, & your down  
Your wrong, when were right  
Your black, & were white  
You fight then suck up, we kick don't make up.

Logan don't really wanna stay alone, she might kill  
herself at her home.  
Cause were hot, & your cold  
Were yes, & your no  
Were in, & your out  
Were up, & your down...
