Were driving slow, row and row, then we see your face.  
And right now were creeping you my dear,  
And you never talk to carmie since that goopy gou.  
It's cold outside, but just don't mind us...  
The world, slows down, but my hatchets sharper now,  
And your eyes, they close, when you smoke all that  
weed,  
(Chorus)  
I can't take all of them weed packs,  
And it doesn't make you relax,  
As the gross smell get stronger,  
All we do is puke up, Because it is disgusting  
All that's left is goodbye, and have fun in rehab, cody  
And I hate that smell right there,  
I hate that smell right there,  
I just can't take your weed  
I hate that smell right there,  
Everyday you smell like weed and it's disgusting,  
I try to talk to you, to say to shut up,  
But insted I puke, everywere before they walk  
And I can't take that smell of weed,  
The world, slows down, but my hatchets sharper now,  
And your eyes, they close, when you smoke all that  
weed,  
(Chorus)  
I can't take all of them weed packs,  
And it doesn't make you relax,  
As the gross smell get stronger,  
All we do is puke up, Because it is disgusting  
All that's left is goodbye, and have fun in rehab, cody  
And I hate that smell right there,  
I hate that smell right there,  
I just can't take your weed  
I hate that smell right there
