Wake up in the morning feeling like killing Cody (Hey,
wudup fag?)
Got my hatchet, I'm out the door I'm gonna kill this
faggot
Before I leave, wipe my knife with a bottle of acid
Cause when I leave for stakeout, he ain't commin' back

I'm talkin' bout hatchet through his nose (nose)
Blood on all his clothes (clothes)
Bombs blowing up his home (home)
Shooting bullets right through his temple
Cutting off his peepee
Tryna' burn his eyes out...

Don't stop, make it hurt
Cody will regret this shit, tonight
Ima' kill till I see the sunlight
Tick tock on my clock
His time is running out now
Woah X8

Don't stop, make it hurt
Cody will regret this shit, tonight
Ima' kill till I see the sunlight
Tick tock on my clock
His time is running out now
Woah X8

Ain't got a care in the world, but got plenty of acid
Got some bullets in my pocket, and my gun right here
And now Codys lining up
Begging for his mercey
But we put em' to death or stab him with a big dagger

I'm talkin' bout Cody getting jumped (jumped)
Hatchets through his skull (skull)
Gonna kill em' if he's gettin' to mean (mean)
Now (now) we goin till he's dead (dead)
Or the police track us down (down)
Police track us down (down)
Po-po track us down...

Don't stop, make it hurt
Cody will regret this shit, tonight
Ima' kill till I see the sunlight
Tick tock on my clock
His time is running out now
Woah X8

Don't stop, make it hurt
Cody will regret this shit, tonight
Ima' kill till I see the sunlight
Tick tock on my clock
His time is running out now
Woah X8

I'll kill you fag
I'll get you soon
I'll crush your skull you faggot
My hatchets up, yeah I'll kill you now
That cracking sound, yeah crush your...

I'll kill you fag
I'll get you soon
I'll crush your skull you faggot
My hatchets up, yeah I'll kill you now
That cracking sound...

Don't stop, make it hurt
Cody will regret this shit, tonight
Ima' kill till I see the sunlight
Tick tock on my clock
His time is running out now
Woah X8

Don't stop, make it hurt
Cody will regret this shit, tonight
Ima' kill till I see the sunlight
Tick tock on my clock
His time is running out now
Woah X8
