Desperate people makes desperate actions  
When your view of life is from the bottom  
Take what you will and you kill if you have to  
In this world is there no justice  
Is there no justice  
Day in and day out  
It's the same situation  
Come out ahead by trusting no one  
Heart beat decisions from the end of a bullet  
Logic of the youth from a gun

[Bridge]:

Is there a method to this madness  
Is there an ending? There must be a way

[Chorus:]

Half way down the drain  
Nothing will ever change  
Halfway down the drain  
The story ends the same  
A body waiting for a grave

Land of the free is the shit that they feed  
Keep me down, I will fester  
Never be soft when you live a hard life  
Sorrow for others doesn't matter

[Bridge/Chorus]
