Conversation lodge our way
Public stage just wanting to... me up
It's all that, you
Now the rest are gone, oh
Dreaming nothing
With the name out
Slow down, slide, petrify,
With the broken pieces... once you see me
Soon I swear the rest... parallel
Then I won't feel the reject,
What's happening

Conversation wasting them
Stuck at... we keep it in, matter
Ocean... the... up, up
Dreaming nothing
Slow down, slide, ready for the...
With the broken pieces... once you see me
Soon I swear the rest... parallel
Then I won't feel the reject, feel the reject
Tell me...
