"River Of Love"

Life after life stand before eyes of the world
Each man, woman and child must decide
We hold inside all the keys to paradise
All nations, all people, all are one

Chorus:

We were born in love and innocence
That's how we came here
We were given hearts to love or hate with
Our time has come
When we can live as one
River of love, we are moving back to the river of love

Tired walls must fall that new hearts may be set free
We stand close to the edge of the truth
Old wounds must heal, must heal in a fresh equality,
Forever
All nations, all people, all are one

(Chorus)

Everyday our lives draw together
Why don't we help each other
This is a chance for all the world
To have what it needs
The freedom to love

(Chorus)

We are moving back to the river of love...
