"Never Gonna Be"

Everybody else knows how this goes
Everybody knows how wide and how much
And how far
Everybody's got my number now
Maybe I can find a way out

I've been running too long on this shift
And I've been keeping tabs on myself
And now I'm cutting in close on my limit
And I think I heard somebody say

You're never gonna be anybody else
You're never gonna see until you see yourself
So come on
Come on
See how it goes
Come on
Come on
Take a deep breath and don't let go
