So here's another one of those
Stretches and beautiful roads
I ain't giving up
'Till I get my way
You can call me crazy if you like
But I've got a secret
And I know somehow
Whatever comes
I'm gonna get by

Let's take the long way
I don't mind
Let's take the long way
Hold my hand
Let's take the long way home

Sometimes there's trails
All look the same
But one of these days
I'll find the one
That leads me on to you
Maybe I laugh a little loud
Maybe I had too much inside
But you need to know
How far I'll go
To be the one that
Comes out alive

Let's take the long way
I don't mind
Let's take the long way
Hold my hand
Let's take the long way home

Follow the signs
Let's take the long way
I don't mind
Let's take the long way
Hold my hand
Let's take the long way home
