I don't need a Christmas tree  
All I need is you with me  
Don't care about any gifts  
Wrapped in a big red bow

I just want you for myself  
More than you could ever tell  
Make my Christmas special  
All I need this Christmas is you

I don't need a lot this Christmas  
There is just one thing I want  
Don't care about any gifts  
Wrapped in a big red bow

I don't need the new cell-phone  
Stacked over the fireplace  
Santa Claus can make me jolly  
With a ring on Christmas day

I just want you for myself  
More than you could ever tell  
Make my Christmas special  
All I need this Christmas is you

Oh you, oh you, you, baby

I don't need a lot this Christmas  
I won't even ask for snow  
I'll be right here just waiting  
Underneath the mistletoe

I won't write a letter and send it  
To the Jolly Old Saint Nick  
I won't even stay awake to  
Hear those magical reindeers click

'Cause I just want you here with me  
Loving you could ever see  
I really miss you  
All I need this Christmas is you

Oh you, oh you, you, baby

Christmas lights are shining  
So brightly everywhere  
And the sound of carolers  
People stop and stare

And everyone is singing  
I hear those sleigh bells ringing  
Santa, won't you please bring the one I really need  
Won't you please bring my baby to me?

Santa, won't you bring him to me?

I need a lot this Christmas  
You're all I'm asking for  
I just want to see you smile  
Next time I walk through that door

I just want you for myself  
More than you could ever tell  
Make my Christmas special  
All I need this Christmas is you

You, you this Christmas  
You, baby  
You, you this Christmas  
You, baby

All I need this Christmas  
Is you, baby  
All I need this Christmas  
Is you, baby

All I need this Christmas  
Is you, baby  
All I need this Christmas  
Is you, baby
