"It's My Party"

Visit "[It's My Party](#)" on MotoLyrics.com

Tonight I just might blow a couple racks, if I want to
Cause tomorrow I know I could make it back, if I want to
Might take a trip around the city, shut it down
I'm known to stop and throw a party,
Wherever I'm at, if I want to
Say I might turn up the music till it slaps, if I want to
But if I really wanna turn up to the max, if I want to
Might go and grab a lil something and while we doin a
hundred
Drop the top just to see how they react, if I want to

Catch me in the club, in vip, turnt up, doing me
So we gonn party while we young
We might as well have some fun
So don't waste non of your time
Cause I'm gonn do just what I want

It's my party I turn up if I want to
Turn up if I want to, turn up if I want to
It's my body I get loud if I want to
Wild out if I want to, I do what I want to
So if you real, and you know it
You could bring a friend
If you ain't on what I'm on
You ain't getting in
It's my party I turn up if I want to
Turn up if I want to, turn up if I want to

So baby if you really came to dance, if I want to
Then take it to the floor this is your chance, if I want to
See it's my life so I do me if I really want it
I stop the music and make everyone put up their hands,
if I want to
See I throw stacks out if I wanna
Cash out if I wanna
If we show up we shut it down
All eyes be on us
Keeping on living it up, tell the dj turn it up
Ain't no stopping what we doin cause we all the way
turnt up

Catch me in the club, in vip, turnt up, doing me
So we gonn party while we young
We might as well have some fun
So don't waste non of your time
Cause I'm gonn do just what I want

It's my party I turn up if I want to
Turn up if I want to, turn up if I want to
It's my body I get loud if I want to
Wild out if I want to, I do what I want to
So if you real, and you know it
You could bring a friend
If you ain't on what I'm on
You ain't getting in
It's my party I turn up if I want to
Turn up if I want to, turn up if I want to

You would turn up too
If you could do what I
You would turn up too
If you could do what I
You would turn up too
If you could do what I do
You would turn up too
If you could do what I
You would turn up too
If you could do what I
You would turn up too
If you could do what I do

It's my party I turn up if I want to
Turn up if I want to, turn up if I want to
It's my body I get loud if I want to
Wild out if I want to, I do what I want to
So if you real, and you know it
You could bring a friend
If you ain't on what I'm on
You ain't getting in
It's my party I turn up if I want to
Turn up if I want to, turn up if I want to
