When i first saw you you looked alien  
Like someone in mid dance  
Like a little old man  
When you first held me in your tiny grip  
You seemdd just like popeye  
With your cap and your souint

Chorus:

Â Â shall we sail away with bluebirds and clear skies  
Â Â no frowns today just smiles that will brighten our  
way  
Â Â and i'll take this old man by the hand  
Â Â to begin again... to begin again...

When i first looked into eyes like mine  
I wondered what i learn  
To see through them in time  
When you first smiled with your toothless grin  
You broke my heart break open  
All the flood gates rushed in

Chorus:

Â Â shall we sail away with bluebirds and clear skies  
Â Â no frowns today just smiles that will brighten our  
way  
Â Â and i'll take this old man by the hand  
Â Â to begin again... to begin again...
