One, two, one, two, three, four

Sometimes I think things are overwhelming
Sometimes I think I don't know what I'll do
But I forget the world and everything around me
That's what I think when I think about you

The streets are filled with too many babies
Black air in a sky of blue
People pass by no life in their eyes
The concrete jungle's really going crazy

Sometimes I think things are overwhelming
Sometimes I think I don't know what I'll do
But I forget the world and everything around me
That's what I think when I think about you
That's what I think when I think about you

The rent is due and the pockets are empty
People ask machines for the truth
No crystal ball can help see it all
But where we gonna find the dreams to feed the babies

Baby, life goes on that's what people say
But I'm nowhere if you go away
I'd just be looking for a brighter day

Come on, come on, hey yeah yeah yeah
Sometimes I think things are overwhelming
Sometimes I think but, but I don't know what I'll do
But I forget the world and everything around me
That's what I think when I think about you, yeah

I think about you, I think about you
Oh when you're not there
Forget about the world and everything around me
That's what I think when I think about you, yeah

Come on, come on I wanna to [Incomprehensible]
We'll think about you
Ah come on now, listen to me baby

That's what I think when I think about you

Come on, come on I think about you
I'll never think about you
Nothing will do, oh listen to me baby
That's what I think when I think about you
Oh yeah

And sometimes I think I don't know what I did
But I forget the world and everything around me
That's what I think when I think about you
