I thought you'd forgotten  
what it was we had  
I thought it was all over now  
And it tore at me so bad  
I thought your life had moved on  
the way some people's do  
then you said you missed me...  
Well, I miss you too...

Chorus:

Never have I felt this  
Never have I felt this love...  
Never have I needed  
Never have I needed anyone...  
Never have I cried  
Never have I cried like this for you  
And you say you miss me...  
I miss you, too....

I thought that it was over  
What was between you and I  
I thought that you hadn't felt  
What I've felt inside  
I thought my words fell empty  
upon your ears  
But with one letter baby  
You eased all my deepest fears...

Chorus

Though you are so far away...  
I feel you're near me each and every day...  
I thought my soul was lying  
When it said we were meant to be  
Then you came back, boy...  
You came back to me...
