Please don't ever leave me
Please don't ever go
Won't you stay
Please don't take away
The only happiness I know

If you ever leave me
If you ever go

On your way
Don't forget the day
You lost the only love
You'll ever know

Girl, won't you try to believe me
Girl, don't you know love is blind
Now that you're trying to leave me
Slowly but surely, I'm going
Clear out of my mind, yeah

Please don't ever leave me
Please don't ever go
Can't you stay
Please don't take away
The only happiness I know

If you ever leave me
If you ever go

On your way
Don't forget the day
You lost the only love
You'll ever know

La la la la...
