Time rolls as days go by  
And now I've figured that I ain't gonna last  
Summer skies are leaving me behind

So resolve your loving, said all  
I'll be lost when you're gone  
Blind me from keep, blind me

Times told as days go by  
I still ponder this old question why  
But now I know there's no time to decide  
So resolve your loving, said all  
I'll be lost when you're gone  
Blind me from keep, blind me

Daylight knows how my eyes have tired  
Like the circles life evermore will bear

So resolve your loving, said all  
I'll be lost when you're gone  
Blind me from keep, blind me
