Stuck in the middle of 1981  
Seek deviation I am hiding from the sun  
Run from the poison, factories and graves  
Spray paint heroes and middle class white slaves

Crypt, crashing, bruised and bashing  
Crawling creep never go away  
Shaved and sliding, scared and broken  
Joking cause I am angry in all my days

Zombie teen insurgence, leather jacket smile  
Black boots of combat, I am super juvenile  
No nazi guises, no tracks up my sleeve  
No corporate lies, no intention to deceive

Crypt, crashing, bruised and bashing  
Crawling creep never go away  
Shaved and sliding, scared and broken

Joking cause I am angry in all my days

Scars of the stories, smoking burning years  
Don't break the circle, bleeding restless ears  
Tanquaray and tonic, secret rebel truce  
A worldwide playground to steal forbidden fruit

Crypt, crashing, bruised and bashing  
Crawling creep never go away  
Shaved and sliding, scared and broken  
Joking cause I am angry in all my days

Crypt, crashing, bruised and bashing  
Crawling creep never go away  
Shaved and sliding, scared and broken  
Joking cause I am angry in all my days
