Controlling everything, the ridiculing hypocrites

Brandish their drowning lust

Feigning tears of deception, their sins are piling up

"Is not it a mistake?"

Everyone devoted to greed, blood dirtied, that's
destiny... are you hunting for this world?

Living without cease, stealing even hope away

The reality of a blindfold deceives

Beautiful things are not needed, even compassion is
only the voice of appearances memory of irritation

Lies...

Break down, tie together, pile up, held overhead

Right...

Indecision made silent

"I change the world."

Show how everything can now be changed by light,
hoist into the sky the tomorrow in which I trust

A vortex of guiding thorns, impregnable, I'm sure that
the answers are spread out in that place

"without seeing into the midst of the briers, I grabbed
as much of the truth there in my hand"

Even though it's a mere hope, it should have changed
the truth, carved into the world and this blood

Lies...

Grasp on, break down, don't care, sink in

Right...

Delusion made silent

"I save you now."

The curtain lifted now on a new world, leaving behind
all indecision

Wings spread under my hand, cross the wall, I'm sure
the answers will echo there

The times is over now...

I draw a new scene...
