VERSE 1 You used to fantasize about a life beyond the school

Where all they care about was how to keep cool
And one day you walk away there was no time to prepare

No time to turn around the future is here

CHORUS You're on your own

You're on your way now

You're not alone

You know it's time to let it go

You're on your own

You gotta know how

You're not alone

You know you have to let it go

(yeah)

VERSE 2 Don't save your energy you can not burn it to fast

All you'll be waiting for will soon become past

Responsibility is got a long kiss good bye

Wild opportunities and now you will try

CHORUS (you know you have to let it go x 3)

VERSE 3 Here's a chance to because all you wanted

be free

You just look at the future 'cause it's that where you free

(yeah)

You're on your own

You're on your way now

You're not alone

You know it's time to let it go

You're on your own

You gotta know how

You're not alone

You're on your own
(don't save your energy
You're on your way now
you can not burn it to fast)
You're not alone
(All you'll be waiting for
will soon become past)
You're on your own
(Responsibility
You gotta know how
is got a long kiss good bye)
You're not alone
(Wild opportunities
and now you will try)

CHORUS till fade
