It was I... the one that showed you the night
And you... opened it up, you came on through

[Chorus:]
So go on, close your eyes... I'll set you free
You tell me deep inside... It's the only way

She wore black... yes, jet black
Bright red nails... I said, Baby, scratch me one more
time

[Chorus]

Come on over... reach and touch me
Wanna ride you through the night

[Chorus]

Come on over... reach and touch me
Wanna ride you through the night
