"Come Back My Friend"

Visit "[Come Back My Friend](#)" on MotoLyrics.com

Come back my friend
You're a beacon in my darkest thoughts
And I loved you so with all your wants
All your poetry in rainbow shape
I'm so glad I got from what you gave
Through the latest years we worried, so
Maybe that is why we let you go
But our love is true and lasting, dear
You will never leave our atmosphere
Come back my friend
With your soul
We'll be one
And the music we play will be great
Come back again
With your soul
We'll have fun
And you know we'll be jamming 'til late
Some may choose to see what you did wrong
But to me you were a source so strong
You told me never to compare myself
And that it's good to be like no one else
I'm your sister through eternity
You have made yourself a part of me
I will keep the music simple, friend
Come on back and play it once again
And the music never ends
It's the heart that understands
And it's connecting me with you
It's Friday night and I miss you friend
It's Friday night, come on back again
