

D-A-D "Wild Talk"

Visit "[Wild Talk](#)" on MotoLyrics.com

You've got a big red tongue
'Coz you've been talking too long
I wouldn't get it back if I lended you an ear
Syllables and sounds is all I hear
So please read my hips and get a hold on your lips
Can't ask you to stop it ain't no use
It's a verbal mess when your tongue is loose
'Coz R mouth is racing while your mind is standing still
Yeah! All that wild talk It's making me ill...
Wild talk Told you that I had enough
But you just babble along the same lines
It's wild tlk Wild tlk Thought I'd never get enough
But you just babble along the same lines Wild tlk

Yeah! But I have to believe
You'll use your eyes to see
- That I'd might like you better if we slept together
'Coz why discuss all night? - When there's room for a
fight
You just linger on You're talking me down
It's a waste of words when I'm around
Yeah! But your tape is rolling while your brain is on
stand-by
All that wild tlk It must be making you high
Ahh! Too high!!
Wild tlk Told you that I had enough
But you just babble along the same lines
Wild tlk - Wild talking misses
Wild tlk - Could I get through with some kisses?
Told you that I had enough, but you just babble along
the same lines
It's wild tlk wild wild tlk...
Yeah! But your tape is rolling while your brain is on
stand-by
All that wild tlk It must be making you high
Wild tlk Told you that I had enough
But you just babble along the same lines Yeah! It's wild
tlk
