(Beth Nielsen Chapman/Mat Rollings)

There are songs I love that catch my breath  
When the first chord starts to play  
Effortless and true, it's funny but I knew

You would always touch my heart that way  
And it hurts so much to let you go  
And there are no words to say  
But the corner of your smile says all I need to know

You could always touch my heart that way

Sail on my love, life is only a blink in time  
Go on and show all those stars what it means to shine  
Like a fire that spins inside a spark  
As the ashes cool to grey  
Kicked up by the wind, dancing through the dark  
You will always touch my heart that way  
Instrumental  
Sail on my sweet love, this world is a blink in time

Go on and show all those stars what it means to shine  
And I know your love is here with me  
I can feel you every day  
Even if the beauty of your face I cannot see  
Only you could touch my heart that way

You can always touch my heart that way
