### "Missing You"

Visit "[Missing You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We were together for quite sometime  
She was my best friend, one of a kind  
We share those things, like lovers do  
It's so hard to lose someone so true

I never dream we will ever be oh no  
But too fast we live separately  
I miss the love from me to you  
It's so hard to lose someone so true

But baby now that's you're gone I feel so alone  
And I'm missing you...

I'm missing you baby

If I can spend just one day with you  
Missing you lately  
I will hold you like we use do  
I'm missing you baby  
I can't believe that this day will ever come  
Cause I love you and you know that I do  
I'm missing you baby

If I can spend just one day with you  
Missing you lately  
I will hold you like we use do  
I'm missing you baby  
I can't believe that this day will ever come  
Cause I love you and you know that I do

I think I'm losing my mind  
Can't get a creep of my life  
Who's like my hardest and my fire inside  
Cause baby you know and I know that's so cruel  
It's so hard to lose someone so true

But baby now that's you're gone I feel so alone  
And I'm missing you...

I'm missing you baby

[Chorus: x2]  
If I can spend just one day with you  
Missing you lately  
I will hold you like we use do  
I'm missing you baby  
I can't believe that this day will ever come  
Cause I love you and you know that I do

The times that we shared than the love that we had  
That's only what matters to me  
That's only what matters to me  
Cause it felt so good  
That's your by my side  
You're the only one that could ever make me blind  
And we apart and just a thought  
That's only one that matters to me

And baby now that your gone  
I feel so alone  
And I'm missing you  
I'm missing you... oohhhhh

[Chorus: x2]  
If I can spend just one day with you  
Missing you lately  
I will hold you like we use do  
I'm missing you baby  
I can't believe that this day will ever come  
Cause I love you and you know that I do
