It aint a joke when I say your the one I love  
But when I look at your face I can't get enough  
The feeling of just thinkin bout your face and charm  
Gets me to protect you and try to keep you from harm  
I gave you my rose, you never gave it back  
I see the games your man plays, I aint playin that  
I aint stayin back, imma keep layin tracks,  
Until you find my rose and find where it's at

Chorus

My Love

Don't you know your all that I think of  
Many days have gone I'm away from you  
Said you'd be at home, just waiting by the phone  
And still aint talked to you

Why Love

Thought we understood that my hearts true  
I'm running out of time, girl I need you  
Spendin my last time, I'm not gonna sleep tonight  
Till I hear your voice

Where is my rose? the one I gave to you  
Where is my rose? don't say we're thru  
Where is my rose? you know I'm missing you  
Has it wilted in the cold?  
Where is my rose?

(Yeah, Yeah)

Where is my Rose?

(Yeah)

Verse 2

My rose is gone and you have to find it  
We have to go back if the time would rewind it  
I look at you, it's a blessing a gift to me  
The thought of you strikes me, I dnt know how it gets to  
me  
I wanna ask you out but something isn't letting me  
But if you wanna talk you can phone or instant  
message me

Please just see it in your heart to accept  
And saying that I Love You was really hard when we  
met  
Cuz I wish I know lies of truth and I don't want no stupid  
ass guy with you  
I want you, so please just listen to my words  
And please you will see I'm the one that you deserve  
The one that you need, the one that you lust  
You see that is me, the one you should love  
And love is just stressin I'll be sure to learn my lesson  
Just see it in your heart and try to answer this question

#### Chorus

Where is my rose? the one I gave to you  
Where is my rose? don't say we're thru  
Where is my rose? you know I'm missing you  
Has it wilted in the cold?  
Where is my rose? the one I gave to you  
Where is my rose? don't say we're thru  
Where is my rose? you know I'm missing you  
Has it wilted in the cold?

Where is my rose  
(Yeah, Yeah)  
Where is my rose  
(Yeah)
