I won't forget you, I'll miss you more all the time
But I need you to let me know that apart you're still mine,
because

With everything I ever have, everything I'll learn on the
way,
I'll wipe your tears away
Everything I ever have, everything you'll ever need
Everything you want me to stay
You'll still be mine today I'll wipe your tears away

Chorus:
Crying now, won't drown the love out
I'll wipe your tears away
You and I don't need a goodbye
Don't hide
I'm here tonight so baby don't cry

There's no tomorrow, without you I don't feel the
dance
But I need to follow, my own feet to give us a chance,
because

All the dreams I ever have, everything I long for today

Might take me far away
All the dreams I ever have, it's not as if I wanna leave
When every last look that you take
Just makes me want to stay please wipe your tears
away

Chorus

It's cold and it's lonely tonight

Because everything I ever have, Everything I'll learn on
the way
I'll wipe your tears away

Chorus(ÃfÃfÃçÃ€"2)
