### "Dare To Dream"

Small town boy with small town ways  
loD<sup>3</sup>/<sub>4</sub>king at the sky, say i wanna these days  
chance will come and call my name  
from that moment on, life will never be the same  
Im gonna break through  
thats what i dream now would do  
just cause to show you

*[Chorus:]*

Anything can happen if you dare to dream  
Miracles can happen when you dare to dream  
Nothing is impossible if you believe  
theres no a goal you can to achieve  
when you dare to dream

Doubts make call from day to day  
but just hold on no matter what they say  
I want look back when times go by  
Im say to myself that i didnt try

*[Chorus]*

Always been in dream with my head in the clouds  
But now then more that Im aloud  
If you wanna reach the stars is hard to them to high  
I always hoped that I could fly
