"Million Ways"

I think of the evenings
When we field around and kissing under stars
All our songs were happy
We go thrumming
Take a moment just to make out in a car
Now everything is changing
You wanna know everywhere I go
But let me have my space
I need you know to understand
I'm just know in that place

[CHORUS:]

There is a million ways to leave you
There is a millions places I could run
But I know that I will still be here tomorrow
Cause there's a million ways to love you
And million ways I could work out find
Stop being so serious
Come on, girl, play it one more time

You tell me you need me
And you wanna settle down cause I'm the one
There's no doubt in your mind
Oh, baby, I'm sorry
Wanna go back to the days when life was fun
I really love those times
But take the write to the things decide
Just like it did before
But now I try to compromise
But please don't ask for more

[CHORUS]

[Bridge:]

I'm not in this life
So if you decide
There's no turning back now
Girl the answers clear
I'm not here, yeah

[CHORUS]
