### "My Faith In You"

For free day now I've been running late  
Catch in upon life that situate  
Pulling on my calling lucky up the door  
Sometimes I think that's gotta be a little more

And on picture you  
And just smile pulls me through  
Than I come to realize  
That my whole world is in you arms

*[Chorus:]*

No, I can make it on my own  
No, without you I can't be strong  
Here, I find love place where I feel you all  
Should I have my faith in you're all alone

When the sun pleasing to the night  
I know that you'll be by my side  
We'll do all the things that everybody does but  
You will marry to me because

*[Chorus]*

Say many past that lead an only one my track  
Wants you walk till there's no looking back  
Words between what I want and what I need  
You'll get me through I believe!
