### **"No One"**

You pack your bag, call the car  
Leaving what we have - think - it's over, over  
You gonna make a mistake

Cos, if you turn and run away  
We gonna be lonely,  
Girl,  
How can't you see that

*[Chorus:]*

No one will ever love you - like I loved you  
Will never touch you - like I touched you  
Even if you find another  
No one will ever love you - like I loved you  
Will never give you all I gave you - no one  
Who will ever love you like I've done? No one.

So, Take your keys and close the door  
Tell me what are you looking for?  
Cos, isn't it over and you know  
Than something I gotta say, Oh baby

Cos, if you turn and run away  
We gonna be lonely,  
Girl,  
I'm gonna tell you

*[Chorus]*

Cos, if you turn and run away  
We gonna be lonely,  
Girl,

You pack your bag, call the car  
Leaving what we have - think - it's over, Over

*[Chorus]*
