"Then You Kissed Me"

I was walking through a life without surprise
As love was happening to somebody else
I was waking up but while my heart was sleeping out
And never make a fool of myself
The series pass me by
Another day to wonder why
A better of alone and staying free

[CHORUS:]

And then you kissed me
And then you kissed me
And then you kissed me
I thought I never feel a love so real
And then you kissed me
Then you kissed me

I was walking round circles when you found me all
Scaring out and chasing my tell
Always running out and giving out a signal
That the only love I knew have to feel
Another day will pass me by
A time alone to wonder why
But solitude and never set me free

[CHORUS:]

And then you kissed me
And then you kissed me
And then you kissed me
Now I'm head over hills I get half of feels

[Bridge]

I've been wasting all this time suffocating of what I feel
inside
I've been breaking hearts by making our love
And giving it to foolish bride

And then you kissed me
And then you kissed me
And then you kissed me
I'm head over

I'm head over
I'm head over hills, yeah

And then you kissed me
And then you kissed me
And then you kissed me
Now I'm head over hills I get half of feels
And then you kissed me
