When I feel all alone
A million miles away from home
I just close my eyes and know you're still loving me
Now I no longer feel alone
This time has only made us grow stronger
Now it's untouchable

And I wanna live in this moment
Forever
And I wanna play this scene over and over and over

Chorus:
Like the river will run
This love will always be strong
When you're here in my arms
I never want it to end
When I look in your eyes
Somehow I realise
That I am truly blessed
Now that you've made this moment timeless

In the heart of the night

I watch you sleep your peaceful dream
Your body's soaked in the pale moonlight
There's nowhere else I'd rather be tonight

And I wanna live in this moment
Forever
And I wanna play this scene over and over and over

Chorus

And now I know
That your beauty's gonna live forever
In my soul

Chorus
