If there's something you wanna do...
You'll know when you've seen it through
Yeah we live as we dream alone
But that's not all you've ever known

Stop, look and listen I can find you
I've been standing right beside you
You don't have to remind me
I know and I won't let go

And if you've taken me for someone who cares
Well there's a dream I know we both have shared
If I talk to you after all's been done
Then I know we'll find home wherever we've gone

You're not the only one...

But there's something I wanna show
No I'm not sure that I should do so...
Now I live all our dreams for free
But that's not all that ever could be

Stop, look and listen I can find you
I've been standing right beside you
You don't have to remind me

I know and I won't let go

And if I've taken you for someone who cares
Well there's a dream I know we both have shared
If you talk to me after what's been said
Then I know there's a home wherever we're led

You're not the only one...
You're not the only one...

And if you've taken me for someone who cares
Then there's a dream I hope we both can share
If I talk to you after what's been said
Well, you have made this home wherever we're led

You're not the only one...

You're not the only one...

We live as we dream alone
But that's not all you've shown
We live as we dream alone
And that's not all we've known
As we dream alone
That's not all you've shown...
