"Love Can Do"

Visit "[Love Can Do](#)" on MotoLyrics.com

Love glanced at me with Your eyes
Love lifted me with Your smile
Love led me into Your heart
That's what Love can do

Love led me when I was right
And sheltered me when I was wrong
Love made You part of my life
That's what Love can do

Soon all these lights will go dim
Who knows how far we must travel
While we're making our way back to Him
Before our dreams can unravel

Love glanced at me with Your eyes
Love lifted me with Your smile
Made you the Light of my life
That's what Love can do

Love can do...
