Can't try the flying  
You know I'll be near  
You know I'll be near  
Take your time in the morning light  
There's nobody here  
There's nobody here

When you feel too much to ever let it show  
You turn it up, turn it down,  
Turn it on, turn it round and leave

When you just don't conceive  
In what you believe

You want to learn the trick to turn  
What's not so pretty into something more beautiful  
It's the same place that I learned to turn  
What could be sorrow into some kind of mercy

When I feel too much to ever let it show  
I turn it up, turn it down,  
Turn it off, turn it round and leave

Then I just don't conceive  
In what to believe
